Tolga Aydoğdu

Architect / Interior architect / Illustrator · Istanbul, Türkiye · tolgydd@gmail.com

// Education

2025– **M.A. History and Theory of Architecture**
Istanbul Bilgi University. GPA 4.00 / 4.00. Provisional thesis: *A Space That Listens Back: Sonic Resonance, Immersion, and the Reconfiguration of Perception*. Supervisor: Dr. Elif Kendir Beraha.

2016–2021 **B.Arch., Double Major in Architecture**
Istanbul Technical University. GPA 3.30 / 4.00.

2013–2019 **B.I.A., Interior Architecture**
Istanbul Technical University.

2016–2017 **Erasmus Exchange, Architecture**
Politechnika Gdańska, Poland.

// Research interests

Architectural theory and spatial epistemologies; immersive and immaterial spatial environments; multisensory perception and embodiment in architecture; experimental spatial design practices bridging theory, media and built experience; interdisciplinary approaches to representation, atmosphere and spatial cognition.

// Publications

2025 **An immersive space design through the material and the immaterial: Toward a multisensory spatial experience**
Uçkan, B., Atukeren, A., Aydoğdu, T., & Gürer, E. Paper presented at SIGraDi 2025, XXVII International Conference of the Ibero-American Society of Digital Graphics, Córdoba, Argentina, 19–21 November 2025.

2025 **Architecture as Ritualistic Apparatus: A Reading of Bruder Klaus Chapel**
Aydoğdu, T. Manuscript prepared for journal submission.

// Conferences

Nov 2025 **SIGraDi 2025**
XXVII International Conference of the Ibero-American Society of Digital Graphics, Córdoba, Argentina.

// Installations

Jun 2026 **KHORA, immersive neuro-responsive spatial installation**

Istanbul Digital Art Festival (IDAF), Atatürk Cultural Center (AKM), Istanbul, 3–7 June 2026. Investigates embodied perception through sound, media and responsive spatial systems; EEG and heart-rate data act as live inputs that reshape the participant's perceptual relation to the environment.

2025 **AION, interactive generative spatial installation**

International Architecture Biennial of Antalya (IABA). Generative visual systems projected onto architectural surfaces, enriched through sound design and user interaction; the visitor becomes an active agent in a continuously evolving environment.

// Teaching and academic engagement

2016– **Guest critic in architectural studio juries**

More than 20 juries across multiple institutions, contributing to design reviews, conceptual discussions and student feedback.

Oct 2022 **Invited seminar: Space as Stream-of-Consciousness: Architecture Tracing the Narrative**

FMV Işık University.

2016–2023 **Co-led workshops and studio-based experimental sessions**

2023	LimitedStructured II, FMV Işık University Arch. Foundation Studio II
2022	LimitedStructured, FMV Işık University Arch. Foundation Studio II
2022	Translative.Fictions, ITU Architectural Project Studio II
2022	İliş-im-ler W3, UMÖB 20,5, Denizli
2021	İliş-im-ler LAB1, MEF University FADA Workshop Week
2021	İliş-im-ler W2, PUPA, Gebze
2019	İliş-im-ler W1, UMÖB 19, Istanbul
2019	R.A.M. Karaköy, ITU Architectural Project Studio IV
2019	Deneysel Anı Toplayıcıları, UMÖB 18, Mardin
2016	Jane's Walk Gdańsk, architectural city tours

// Research and technical skills

Practice-based research through spatial installations and media environments; development of immersive architectural experiments integrating projection mapping, sound design and interactive systems; exploration of biofeedback and neuro-responsive inputs as spatial design parameters; interdisciplinary methods bridging theoretical inquiry with material and immaterial spatial production; communicating research through visual, diagrammatic and experiential formats.

// Languages

Native	**Turkish**
Advanced	**English** Academic proficiency, YÖKDİL 97.5 / 100.
